

**GRANT PROPOSALS FROM:
A FOUNDATION OR ORGANIZATION
THAT RAISES FUNDS FOR ANOTHER SPECIFIC ENTITY**

(Foundations or other nonprofit organizations that exist solely or partly for the purpose of raising funds for another specific, named entity. Examples include – but are not limited to – the foundation for a hospital, university, college, school district, or individual school.)

Organizations that raise funds for another specific entity are required to provide all the items in the Proposal Checklist in The Denver Foundation's *Community Grants Program Guidelines, Effective 2010*.

Give us the information or documents that refer to the applicant organization, NOT the entity for which the applicant raises money.

Please note that an organization that raises funds for another specific entity, and the entity for which it raises funds, cannot apply separately to The Denver Foundation in the same 12-month period.

Please refer to *What We Don't Fund* on page 3 of the Guidelines for important information about requests from individual public schools or departments/programs of colleges or universities.

If you have any questions about these requirements, please call Bill Inama, Associate Grants Manager at The Denver Foundation, at 720-974-2600.
